GENERAL AND REVENUE SECRETARIAT.

Serial Nos. 1–6

Part B for 1896

SUBJECT.

Remission of half of the wet assessment on the lands below Chelwamba tank in Nanjan[illegible] Gudalur

GPB—10,000—23-3-15

Indexed

kg

(11)

Submitted for sanction.

In the statement for 1892-93 & 1894 14 inch Cut Rs. 2,97,2-800 dated 5th March 90 is quoted as the authority under which remission is recommended. This order does not remit remission being granted when Govt lands do not receive sufficient supply of water, as in the present case. The question for decision is, can the remission recommended in this D.C.'s case be granted.

16/12/96

H.A. has also ascertained from the E.E.W. now for the restoration of the old feeder Channel to the tank sanctioned in June 1895 has progressed.

Submitted for secretary's

17/12/96

Please see our Rules of 5th June 1896. Further

A Tank Restoration was dealt with as a Minor case & a remission was granted in previous years also. There was a complaint from the ryots that full assessment was being demanded from them for 1895-96. Reference may be made to the Section Branch.

(2)

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,
Dated Mysore 2nd November 1894.

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

SIR,

I have the honor to submit herewith the marginally noted three statements for remission of half assessment on the lands below Chéluramba tank in the Sanjangode táluk.

	Rs. a. p.
Statement for 1892-93	381-5-2
— do. 1893-94	381-4-8
— do. 1894-95	381-10-2
	1144-4-0

2. The statements for the years 1892-93 and 1893-94 show that seed had been sown for wet crop on a small extent but that it did not germinate and that therefore any crops were raised on a small area while a large extent was left waste. The statement for the year 1894-95 shows that there was no water in the tank and that therefore no wet crop was raised in that year.

3. It has been reported by the Amildar that the Sanitary Officers personally inspected the lands and ordered the remission

now

now proposed.

4. Owing to constant complaints of insufficiency of water in this tank the Government have in the Public Works Department under No 2992-5 / 5703-3 of the 15th June 1895 directed the submission of a project for a feeder for it.

5 Under the foregoing circumstances I request you to be so good as to obtain sanction of Government to strike the sum of Rupees 1144-9-1 shewn in the said statements of the accounts.

I have the honour to be,
Sir,
Your most obedient Servant.

M Venkatarangiah

Deputy Commissioner
of the Mysore District

SIR,

Adverting to your docket No. 2572 of the 2nd March 1897, I have the honor to state that a remission of the assessment of Rs. 381-10-4 on lands below Chelluamba tank in the Nanjangud taluk was granted for the year 1891-92 in Government order No. 5531-163-92 of the 15th September 1893 and that the amount of assessment on lands below this tank was Rs. 763-7-1 for the year 1895-96.

2. Sanction of Government to the remission shown in the three statements already submitted with this office No. 909 of the 2nd November 1896 may be kindly intimated at an early date.

I have the honor to be,
Sir,

No. 161
Enclosure No. Nil

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,
Dated Nagara Chadya 22 1891

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

SIR,

I have the honour to submit herewith a petition dated 15th June 1892 of the inhabitants of Nilkund praying to be granted remission of assessment for the years 1892-93, 1893-94, and 1894-95, for the lands below the Nilkunda tank in the Nanjangud taluk not watered in the years referred to above, the tank having been in a ruinous condition.

2. The Deputy Commissioner in his report dated 1st July 1892 states that the petitioners have represented that the tank was in a ruinous condition in the year 1891, and that the water was insufficient to irrigate the lands below it, and that in consequence of this they did not cultivate the lands in the years referred to above. The Deputy Commissioner has also reported that the Tahsildar of Nanjangud, after inspecting the lands below the tank, is satisfied that the petitioners did not cultivate for want of sufficient supply of water in the tank while a large extent was cultivated in the neighbouring villages.

3. The Deputy Commissioner has recommended remission of half of the assessment for the years mentioned. The papers have already been placed before Government for sanction.

4. The Executive Engineer admits that the tank was repaired in 1891

1891, it has not fallen even in years of exceptionally heavy rainfall vide para 2 of Government Proceedings dated 7th Jan 1892 No 3 Pr. 3 of the 16th June 1876, in the Public Works department.

3. The Enclosed Correspondence on the subject is enclosed for further reference. ——

I have the honor to be,
Sir
your most obedt Servt

Draft as per order

73

Read:-

Correspondence ending with letter No 161 dated 2d August 1897 from the Dy Commr, Mysore District, submitting a further report regarding the remission of half the wet assessment amounting to Rs. 1144/9/1 on the Lands below Chelluvamba tank in the Nanjangud Taluk, for the years 1892-93, 1893-94 and 1894-95.

Order thereon:—

It is observed that the remission of half assessment on the above lands was granted for the years 1887-88, 1888-89, 1889-90 and 1890-91, on the ground that the tank was under repairs during those years (vide Govt Proc* No 4341 30/6/92 and S/1378/88-9 R7163)

Section LR
File No 384/96
Serial No 56

No 2344 dt 5/8/97
R 7 165-92 30

* Para 61. * Para 35

and that a similar remission was granted for the year 1891-92 on account of general drought. Even after the repairs of the tank which were completed at the close of the year 1891, the tank which is shewn to have a capacity of 270 mil with the large catchment area of 18·5 Sq miles, did not fill in years of exceptionally heavy rain fall, and although an absence observed by Govt in the P.W. Department that although the inefficiency of water in the tank is attributed to the absence of tank-filling rains in the locality, yet the more probable reason appears to be the cultivation in recent years of a greater part of the catchment area thereby rendering the tank inefficient. The Jamabandy officer is Selected

* Pro. No 2772-8-915/6195
370-3

24

that owing to want of water in the tank, some of the lands were cultivated with dry crops, while the wet crop raised on other lands withered away.

2. Under the above circumstances, Govt are pleased to sanction as a special case, the remission of half the assessment amounting to Rs. 1144-9-1 on the lands below the Chelwamba Tank for the years 1892-93, 1893-94 and 1894-95.
